Divano

Soft seating collection
from

Spacewood Office Solutions

In the continuing endeavour to meet our business objectives and goals, the key motivators for our team are new ideas, innovation and excitement all the way.

A new milestone that we are proud to have reached in this journey is the successful creation of our new soft seating collection – **Divano**, and I am delighted to present this vibrant and comprehensive collection.

Indeed, our satisfaction would be the greatest if you also feel and experience the same excitement as us.

I am sure that you will find a product that's just right for you from this soft seating collection that comprises of social spaces, lounge chairs and sofas.

It is my pleasure to walk you through this new, exciting experience!

best wishes,

Nitin Sudame
Founder Director,
Spacewood Office Solutions

The way we work has changed.

Work and interaction happens

anytime & anywhere . . .

task areas

meeting rooms

lobbies

corridors

hallways

breakout zones

People need

different spaces . . .

. . . dynamic spaces . . .

. . . calm spaces . . .

. . . social spaces . . .

to collaborate,
share thoughts and ideas

that encourage
free-flowing discussions

where one can think
in quiet solitude

. . . relaxed spaces . . .

to unwind and
de-stress

Soft seating allows people to do the
most important thing that helps
accomplish purpose . . .

. . . to stop, sit down, get comfortable
and find time to think,
find inspiration and ideate.

Young, Bold & Stylish
the very soul of Divano

Divano brings alive all that you want to be,
taking it out from your imagination and
bringing it into your workspace, letting you
work freely and anywhere - the way you want.

A Spacewood Office Solutions brand

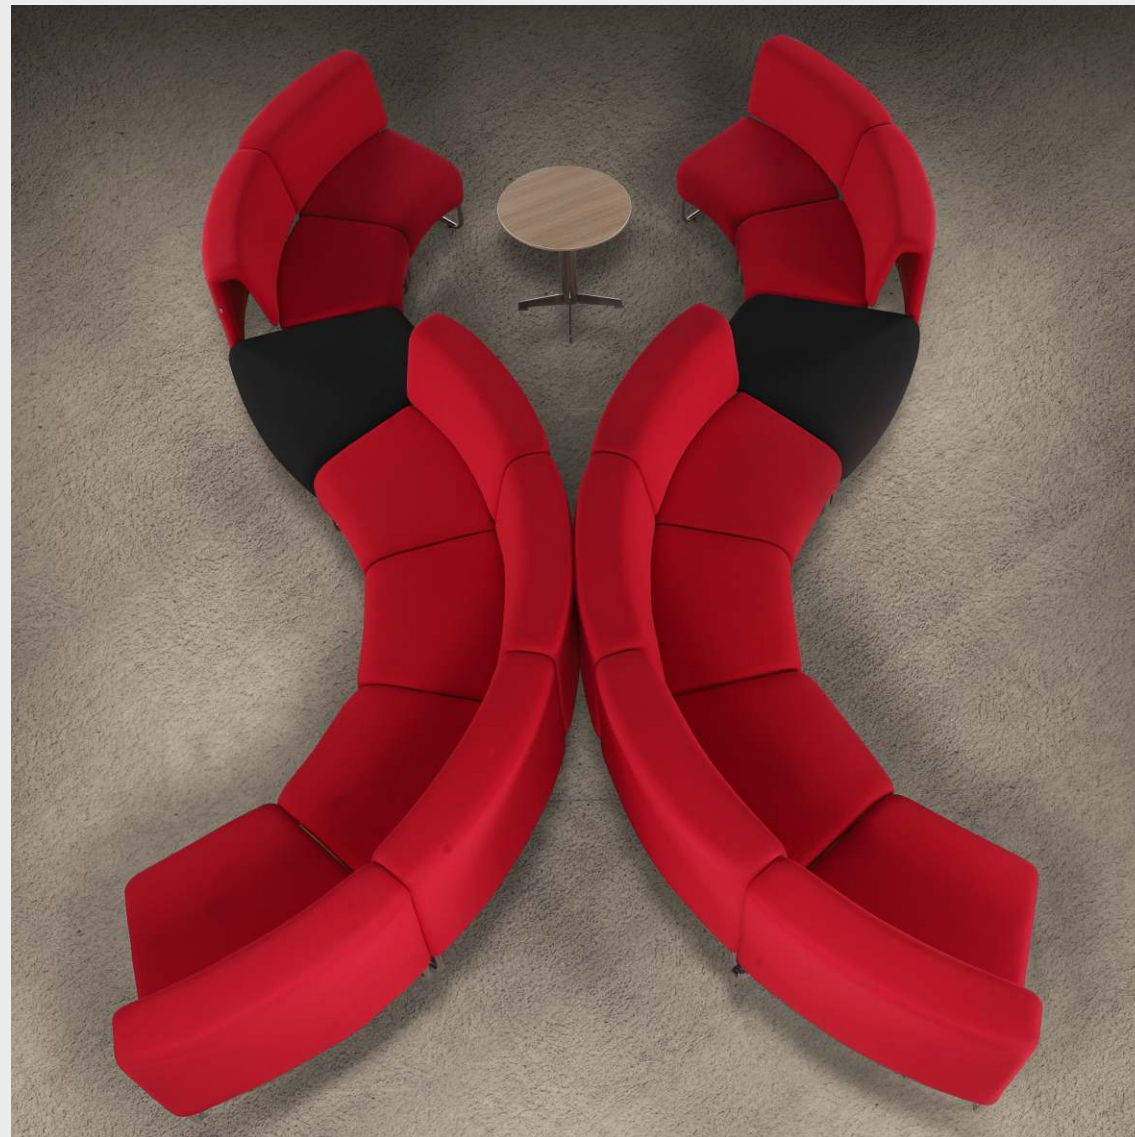

Divano
soft seating collection

Socio

form & design

Socio is the very embodiment of free flowing thought and unfettered creativity which brings that "Aha" moment to all that it touches.

Divano
soft seating collection

Socio's beautiful form and design combined with vibrant colours helps to create spaces that make a perfect setting for collaboration

Socio
form & design

Divano
soft seating collection

Socio is offered as two independent modules – a sofa and a bench with frame sections made of glossy SS pipes

These modules can be used in multiple ways to create countless configurations.

Freddy

the bold &
the beautiful

Freddy is a uniquely designed product, ideal for social spaces, bringing in a cheerful ambience with a bold design and vibrant colours.

A Spacewood Office Solutions brand

Divano
soft seating collection

Freddy modules offer the freedom to create various configurations that suit your style and comfort.

Freddy

the bold & the beautiful

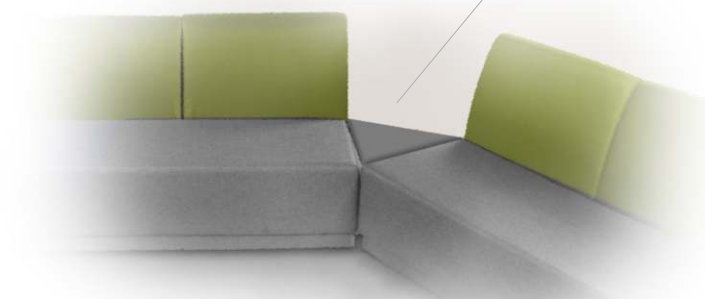

Divano

soft seating collection

Freddy is easy to configure in different layouts. Electrical and USB sockets* are an added convenience.

Freddy can also be paired with a triangular bench* with a cushioned or laminated top which serves as a utility table.

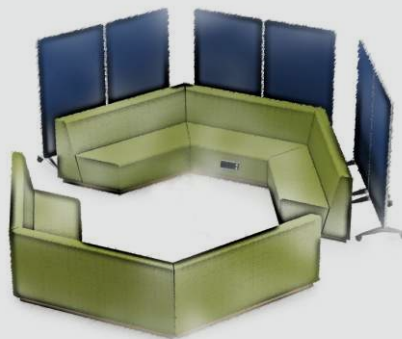

Dugout

style &
substance

Nothing beats Dugout when it comes to comfort blended with ultra stylish looks. Dugout is ideal for well socially-distanced seating with options for privacy.

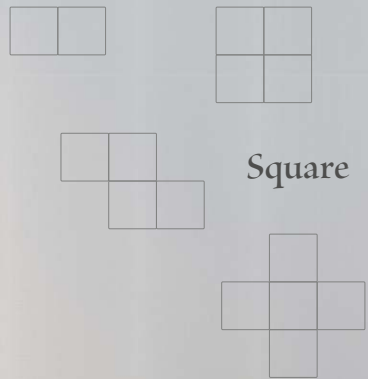

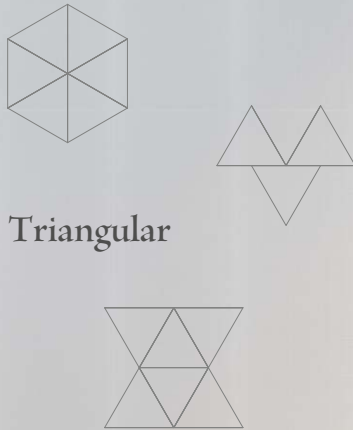

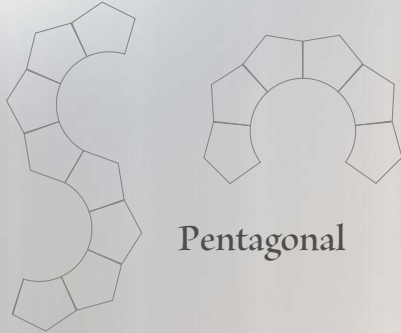

Dugout can also be paired with Cealio mobile privacy screens where a closed environment is required. Dugout's convenience can be enhanced with electrical and USB sockets.

Poufs & Carry stools

Easy to scatter and carry around, Divano poufs & carry stools are the natural choice for spaces where you want to quickly form informal groups.

Lounge chairs

Divano offers the quintessential lounge chairs when you want a quiet and calm place to work in solitude and personal comfort.

Normally, in the industry, one uses either metal or wood composites for frames in their contemporary designs, but the traditional and master craftsman's choice is solid wood timber.

strength

frame work

The frame of a sofa is the skeleton that keeps every part of the sofa together, and for that reason, it is incredibly important that it is strong and robust — able to stand up to everyday use without compromising on comfort.

At SOS, we maintain that traditional timber frame methods are the best choice for manufacturing a high-quality piece of enduring soft seating. More specifically, we prefer solid wood, which is well known for its solidity and ease to work with.

The inner structure of Divano is made of solid wood and ply for frames which keeps the structural integrity intact over time and makes the product durable and long lasting.

Apart from comfort,
key criteria for
selection of the right
fabric should be easy
maintenance and a
high level of
protection against
bacteria and other
hazardous microbes.

luxurious feel

fabrics

As important as stylish design, the look and feel of any soft seating is greatly impacted by the quality and texture of the upholstery.

Divano uses leatherettes and fire retardant fabrics with the highest industry standards. Divano fabrics are made of higher GSM material, anti-stain coating*, good abrasion resistance and tensile strength which make the upholstery durable and long lasting

Most importantly these fabrics can be offered with antimicrobial coating as an additional coat*. This gives protection against bacteria, mould, mildew, and other hazardous microbes.

Blending of polyester yarns make Divano fabrics more flexible with better wrapping characteristics. These are also easier to maintain and have good colour fastness.

*optional

To achieve a true
feeling of comfort
and support in soft
seating requires a
construction that
uses a careful
selection of best
grades of webbing,
springs and foams.

comfort

foam & springs

Comfort in soft seating come primarily from key factors such as soft feel; inherent pliability, resilience and firm support.

To provide optimum seating comfort and support, Divano uses a combination of foam densities ranging from 50 to 55kg/m³ for lounge chairs and 32 to 40 Kg/m³ for sofas and poufs which ensures firm support and yet gives a soft feel.

Polyester fibres, which are robust and adaptable are also used in filling the cushions, and when combined in large numbers along with foam, they add a degree of natural resilience and provide support to the frame's seating area.

The resilience and springiness of the seat is enhanced by the use of carefully constructed metal wire springs which also works as an efficient suspension method.

Divano offers everything that you may want.
go ahead! Pick your choice!

Divano
soft seating solutions

Looking after your Divano

With regular care and maintenance, your Divano will provide many years of superior performance and satisfaction. Please follow the cleaning procedures outlined below.

Handling stains on textured fabrics

Removal of water based pen marks is possible using detergent based spot cleaners. For textured fabrics, apply cleaning agents using a clean cloth and not directly on the fabric surface. This method will help preventing channeling of stains into the fabric textures or patterns. Treat spills and stains as soon as possible.

Fabrics

Water-based stains such as coffee, soft drinks, milk etc.

- Use a water-based cleaner (specifically made for cleaning fabric) or a solution of mild (alkaline) warm soapy water (not overly soapy) applied with a damp clean cloth or sponge
- Work the cleaner into a lather or foam
- Soak up all remaining solution and then use a clean cloth or sponge dipped in cool water to remove any residue
- Quickly dry with hair-dryer, working outward from the centre of the stain to prevent rings from forming. For best results, consider clearing whole panels of fabric this way.
- Never use hot water; it will set the stain
- Avoid scrubbing

Oil-based stains such as lipstick, grease or salad dressing

- Use a dry cleaning solution applied with a damp clean cloth or sponge
- Test the cleaning solution on a small, concealed area first
- Do not over apply water or any liquid solution on the fabric
- Excessive wetting of the fabric with any liquid solution may result in permanent damage
- If there is no spotting, ringing, or damage to the fabric or its dyes, apply the cleaning solution to the soiled area with light, quick strokes. Start from the outside of the stain and work toward the centre, being careful not to over-saturate the fabric
- Do not rub too vigorously as it may damage the nap of the fabric or the fabric fibers may break
- Several light applications are better than one heavy application
- Soak up all remaining solution and then use another clean cloth or sponge dipped in cool water to remove any residue
- Let fabric dry thoroughly and then vacuum well before using
- Once residual stains have been removed, deodorise the affected area to remove lingering odours. Then re-apply fabric protector to restore any liquid repellency lost during stain removal.
- If the stain resists cleaning, contact a professional cleaner

The SOS trust

Spacewood Office Solutions has emerged as one of the most preferred furniture suppliers with over 60% of the retention clients against a base of over 3000 customers and has executed 9000+ projects installed across the country.
